

# Understanding the Economic Development Landscape

**NEIL LINSCHIED**

# GOALS OF THIS SESSION

- Consider your preferences related to economic development
- Discuss each differences
- Gain thinking to sort through fads

# STATEMENT SORT

- 5-7 minutes initial sort
- 5 minutes to make adjustments
- Write you final choices in the box below the card
- There is no right answer!
- These all have a home in research.

# TAKE OUT YOUR PURSE/WALLET

- Take your money out and put it on the board
- Put money on the concepts you would most like to invest in
- You're in charge

# RECORD

- Write the amounts you bet in the box below the card.

# ADD IT UP IN YOUR GROUP

- Which statements had the most bets?
- Which had the most \$?

# WHAT CAN WE LEARN THIS?

# QUESTIONS TO CONSIDER

- What are effective ways to reconcile your differences?
- What happens, if opposing bets could negate each other?
- Can you have it all?
- Which statements would cost more than others?
  - How would that change the way you spend?

# DEBRIEFING

- This type of activity happens in communities and regions
- Each person (community) comes to a region with different resources and values
- Some of you might have thought in terms of means & others in terms of ends

# STRATEGIES

- Ask:
  - Is this about an process, goal, or technique?
  - Is it about people, places, or finances?
  - What is right for my situation and resource mix?
    - Not all strategies work everywhere
    - Careful thinking is irreplaceable
    - Remember the cards. You have to choose. Some cost more than others.

# HOW DO YOU THINK YOUR ROLE EFFECTED YOUR CHOICES?

- How is your self interest tied to these statements and definitions?
- Does it matter?

# YOU THINK ABOUT THIS DIFFERENTLY..

- Than your neighbors/ fellow leaders
  - Potential partners
  - Funders
  - Citizens
- 
- How you bridge that gap and translate your differences is what will really matter!
